INSIGHTS MDI
INTERNATIONAL®

Introduction Where Opportunity Meets Talent

The TTI Success Insights® Talent Insights Report was designed to increase the understanding of an individual's talents. The report provides insight to three distinct areas: behaviours, driving forces and the integration of these. Understanding strengths and weaknesses in these areas will lead to personal and professional development and a higher level of satisfaction.

The following is an in-depth look at your personal talents in the three main sections:

Behaviours

This section of the report is designed to help you attain a greater knowledge of yourself as well as others. The ability to interact effectively with people may be the difference between success and failure in your work and personal life. Effective interaction starts with an accurate perception of oneself.

Driving Forces

This section of the report provides information on the why of your actions, which with application and coaching, can tremendously impact your valuing of life. Once you know the motivations that drive your actions, you will immediately be able to understand the causes of conflict.

Integrating Behaviours And Driving Forces

This section of the report will help you blend the how and the why of your actions. Once you can understand how your behaviours and driving forces blend together, your performance will be enhanced and you will experience an increase in satisfaction.

Introduction Behaviours Section

Behavioural research suggests that the most effective people are those who understand themselves, both their strengths and weaknesses, so they can develop strategies to meet the demands of their environment.

A person's behaviour is a necessary and integral part of who they are. In other words, much of our behaviour comes from "nature" (inherent), and much comes from "nurture" (our upbringing). It is the universal language of "how we act," or our observable human behaviour.

In this report we are measuring four dimensions of normal behaviour. They are:

- How you respond to problems and challenges.
- How you influence others to your point of view.
- How you respond to the pace of the environment.
- How you respond to rules and procedures set by others.

This report analyses behavioural style; that is, a person's manner of doing things. Is the report 100% true? Yes, no and maybe. We are only measuring behaviour. We only report statements from areas of behaviour in which tendencies are shown. To improve accuracy, feel free to make notes or edit the report regarding any statement from the report that may or may not apply, but only after checking with friends or colleagues to see if they agree.

Communication Tips

This section provides suggestions on methods which will improve Max's communications with others. The tips include a brief description of typical people in which he may interact. By adapting to the communication style desired by other people, Max will become more effective in his communications with them. He may have to practice some flexibility in varying his communication style with others who may be different from himself. This flexibility and the ability to interpret the needs of others is the mark of a superior communicator.

When communicating with a person who is dependent, neat, conservative, perfectionist, careful and compliant:

- Prepare your "case" in advance.
- Stick to business.
- Be accurate and realistic.

Factors that will create tension or dissatisfaction:

- Being giddy, casual, informal, loud.
- Pushing too hard or being unrealistic with deadlines.
- Being disorganised or messy.

When communicating with a person who is ambitious, forceful, decisive, strong-willed, independent and goal-oriented:

- Be clear, specific, brief and to the point.
- Stick to business.
- Be prepared with support material in a well-organised "package."

Factors that will create tension or dissatisfaction:

- Talking about things that are not relevant to the issue.
- Leaving loopholes or cloudy issues.
- Appearing disorganised.

When communicating with a person who is patient, predictable, reliable, steady, relaxed and modest:

- Begin with a personal comment--break the ice.
- Present your case softly, nonthreateningly.
- Ask "how?" questions to draw their opinions.

Factors that will create tension or dissatisfaction:

- Rushing headlong into business.
- Being domineering or demanding.
- Forcing them to respond quickly to your objectives.

When communicating with a person who is magnetic, enthusiastic, friendly, demonstrative and political:

- Provide a warm and friendly environment.
- Do not deal with a lot of details (put them in writing).
- Ask "feeling" questions to draw their opinions or comments.

Factors that will create tension or dissatisfaction:

- Being curt, cold or tight-lipped.
- Controlling the conversation.
- Driving on facts and figures, alternatives, abstractions.

The Absence of a Behavioural Factor

The absence of a behavioural factor may provide insight into situations or environments that may cause tension or stress. Based on research, we are able to identify situations that should be avoided or minimised in a person's day-to-day environment. By understanding the contribution of a low behavioural style, we are able to better articulate a person's talents and create environments where people can be more effective.

Situations and circumstances to avoid or aspects needed within the environment in order to minimise behavioural stress.

- Avoid projects that require constant focus without any room for variance in task.
- Avoid positions that revolve around routine work.
- The need for juggling many tasks at once may jeopardise quality.

Understanding that the need to adapt is unavoidable at times, below are tips for adapting to those with S above the energy line and/or tips for seeking environments that will be conducive to the low S.

- Seek environments where change is rewarded versus discouraged.
- Recognise the constant need for change causes fear in others.
- Understand and recognise that the avoidance of delegation may have a negative impact long-term.

Descriptors

Based on Max's responses, the report has marked those words that describe his personal behaviour. They describe how he solves problems and meets challenges, influences people, responds to the pace of the environment and how he responds to rules and procedures set by others.

Driving	Inspiring	Relaxed	Cautious
Ambitious	Magnetic	Passive	Careful
Pioneering	Enthusiastic	Patient	Exacting
Strong-Willed	Persuasive	Possessive	Systematic
Determined	Convincing	Predictable	Accurate
Competitive	Poised	Consistent	Open-Minded
Decisive	Optimistic	Steady	Balanced Judgment
Venturesome	Trusting	Stable	Diplomatic
Dominance	Influencing	Steadiness	Compliance
Calculating	Reflective	Mobile	Firm
Cooperative	Factual	Active	Independent
Hesitant	Calculating	Restless	Self-Willed
Cautious	Sceptical	Impatient	Obstinate
Agreeable	Logical	Pressure-Oriented	Unsystematic
Modest	Suspicious	Eager	Uninhibited
Peaceful	Matter-of-Fact	Flexible	Arbitrary
Unobtrusive	Incisive	Impulsive	Unbending

Time Wasters

This section of your report is designed to identify time wasters that may impact your overall time use effectiveness. Possible causes and solutions will serve as a basis for creating an effective plan for maximising your use of TIME and increasing your PERFORMANCE.

Lack of a Written Plan

A plan in this context may be an overall business plan including mission, goals, objectives, task requirements and utilisation of resources. It may also simply mean written priorities and a written daily plan of action.

Possible Causes:

- Action oriented, want to get things done now
- Priorities keep changing (self- or other-imposed)
- Have been successful without a plan in the past
- Want to "go with the flow" and not be stifled by a written daily agenda

Possible Solutions:

- Write down personal and job-related values and prioritise them
- Write out a long-term plan that will support those values
- Recognise that by having priorities clearly in mind, constant change will be replaced with change-by-design

Snap Decisions

Snap decisions in this context are those decisions that are made too quickly without having all the necessary information.

Possible Causes:

- Impatience overrides need to wait for more information
- Try to do too much
- Failure to plan in advance
- Lack specific goals

Possible Solutions:

- Ask for recommendations
- Establish process for decisions prior to situation occurring
- Establish standard operating procedures and alternative procedures for possible problems

Adapted Style

Natural Style

Time Wasters Continued

Firefighting

Firefighting is often defined as being pulled away from priority tasks to answer questions, offer solutions, delegate or solve problem-related minor issues. These issues usually "flare up" quickly and are "put out" quickly.

Possible Causes:

- Desire to solve problems quickly and sometimes without adequate information
- Lack of delegation
- Lack of standard operating procedures
- Poor/wrong priorities
- Failure to fit intensity to the situation

Possible Solutions:

- Establish a plan
- Create operational procedures for tasks and known problems
- Establish a "management by objectives" approach

Poor Delegation

Poor delegation usually means the inability to discriminate between tasks needing your time and attention, and those others are capable of accomplishing.

Possible Causes:

- Do not want to give up control
- Do not trust the abilities of others
- Do not understand the abilities of others
- Fear the talents of others
- Do not want to overload others

Possible Solutions:

- Train and mentor others
- Develop a support team
- Give people the opportunity to help
- Recognise the time spent training others on routine tasks will result in gained cumulative time for higher priority tasks

Adapted Style

Natural Style

Time Wasters Continued

Crisis Management

Crisis Management is defined as a management style that is consistently driven by uncontrolled external issues as the preferred method of managing. This style allows crises to precipitate rather than anticipating them and being pro-active.

Possible Causes:

- Lack planning
- Place unrealistic time requirements on people and tasks
- Always looking for problems to solve

Possible Solutions:

- Have a well defined operational plan
- Target key individuals to handle specific problems
- Ask for recommendations from key people
- Delegate authority and responsibility when possible

Adapted Style Natural Style

Behavioural Hierarchy

The Behavioural Hierarchy graph will display a ranking of your natural behavioural style within a total of twelve (12) areas commonly encountered in the workplace. It will help you understand in which of these areas you will naturally be most effective.

1. Urgency - Take immediate action.

100

2. Versatile - Adapt to various situations with ease.

90

3. Competitive - Want to win or gain an advantage.

85

4. Frequent Change - Rapidly shift between tasks.

82

5. Interaction - Frequently engage and communicate with others.

80

6. People-Oriented - Build rapport with a wide range of individuals.

55

7. Analysis - Compile, confirm and organise information.

40

8. Customer-Oriented - Identify and fulfil customer expectations.

40

* 68% of the population falls within the shaded area.

The Success Insights® Wheel

The Success Insights® Wheel is a powerful tool popularised in Europe. In addition to the text you have received about your behavioural style, the Wheel adds a visual representation that allows you to:

- View your natural behavioural style (circle).
- View your adapted behavioural style (star).
- Note the degree you are adapting your behaviour.
- If you filled out the Work Environment Analysis, view the relationship of your behaviour to your job.

Notice on the next page that your Natural style (circle) and your Adapted style (star) are plotted on the Wheel. If they are plotted in different boxes, then you are adapting your behaviour. The further the two plotting points are from each other, the more you are adapting your behaviour.

If you are part of a group or team who also took the behavioural assessment, it would be advantageous to get together, using each person's Wheel, and make a master Wheel that contains each person's Natural and Adapted style. This allows you to quickly see where conflict can occur. You will also be able to identify where communication, understanding and appreciation can be increased.

Understanding Your Driving Forces

Eduard Spranger first defined six primary types or categories to define human motivation and drive. These six types are Theoretical, Utilitarian, Aesthetic, Social, Individualistic and Traditional.

With TTISI's additional insights into Spranger's original work, the 12 Driving Forces® came to life. The 12 Driving Forces® are established by looking at each motivator on a continuum and describing both ends. All of the twelve descriptors are based on six keywords, one for each continuum. The six keywords are Knowledge, Utility, Surroundings, Others, Power and Methodologies.

You will learn how to explain, clarify and amplify some of the driving forces in your life. This report will empower you to build on your unique strengths, which you bring to work and life. You will learn how your passions from 12 Driving Forces® frame your perspectives and provide the most accurate understanding of you as a unique person.

Please pay careful attention to your top four driving forces, as they highlight what most powerfully moves you to action. As you examine the next tier of four driving forces, you will recognise they may have strong pull for you, but only in certain situations. Finally, when reviewing the bottom four driving forces, you will identify your varying levels of indifference or total avoidance.

Once you have reviewed this report you will have a better grasp of one of the key areas in the Science of Self™ and will:

- Identify and understand your unique Driving Forces
- Understand and appreciate the Driving Forces of others
- Establish methods to recognise and understand how your Driving Forces interact with others to improve communication

Primary Driving Forces Cluster

Your top driving forces create a cluster of drivers that move you to action. If you focus on the cluster rather than a single driver you can create combinations of factors that are very specific to you. The closer the scores are to each other the more you can pull from each driver. Think about the driver that you can relate to most and then see how your other primary drivers can support or complement to create your unique driving force.

1. Objective - People who are driven by the functionality and objectivity of their surroundings.

81

2. Receptive - People who are driven by new ideas, methods and opportunities that fall outside a defined system for living.

71

3. Intellectual - People who are driven by opportunities to learn, acquire knowledge and the discovery of truth.

69

4. Commanding - People who are driven by status, recognition and control over personal freedom.

68

Situational Driving Forces Cluster

Your middle driving forces create a cluster of drivers that come in to play on a situational basis. While not as significant as your primary drivers, they can influence your actions in certain scenarios.

5. Altruistic - People who are driven to assist others for the satisfaction of being helpful or supportive.

54

6. Selfless - People who are driven by completing tasks for the sake of completion, with little expectation of personal return.

44

7. Resourceful - People who are driven by practical results, maximising both efficiency and returns for their investments of time, talent, energy and resources.

39

8. Intentional - People who are driven to assist others for a specific purpose, not just for the sake of being helpful or supportive.

24

Indifferent Driving Forces Cluster

You may feel indifferent toward some or all of the drivers in this cluster. However, the remaining factors may cause an adverse reaction when interacting with people who have one or more of these as a primary driving force.

9. Collaborative - People who are driven by being in a supporting role and contributing with little need for individual recognition.

17

10. Instinctive - People who are driven by utilising past experiences, intuition and seeking specific knowledge when necessary.

14

11. Structured - People who are driven by traditional approaches, proven methods and a defined system for living.

11

12. Harmonious - People who are driven by the experience, subjective viewpoints and balance in their surroundings.

8

Areas for Awareness

For years you have heard statements like, "Different strokes for different folks," "to each his own," and "people do things for their own reasons, not yours." When you are surrounded by people who share similar driving forces, you will fit in with the group and be energised. However, when surrounded by people whose driving forces are significantly different from yours, you may be perceived as out of the mainstream. These differences can induce stress or conflict.

This section reveals areas where your driving forces may be outside the mainstream and could lead to conflict. The further above the mean and outside the mainstream you are, the more people will notice your passion about that driving force. The further below the mean and outside the mainstream you are, the more people will notice your avoidance or indifference regarding that driving force. The shaded area for each driving force represents 68 percent of the population or scores that fall within one standard deviation above or below the national mean.

Norms & Comparisons Table - German Norm 2017

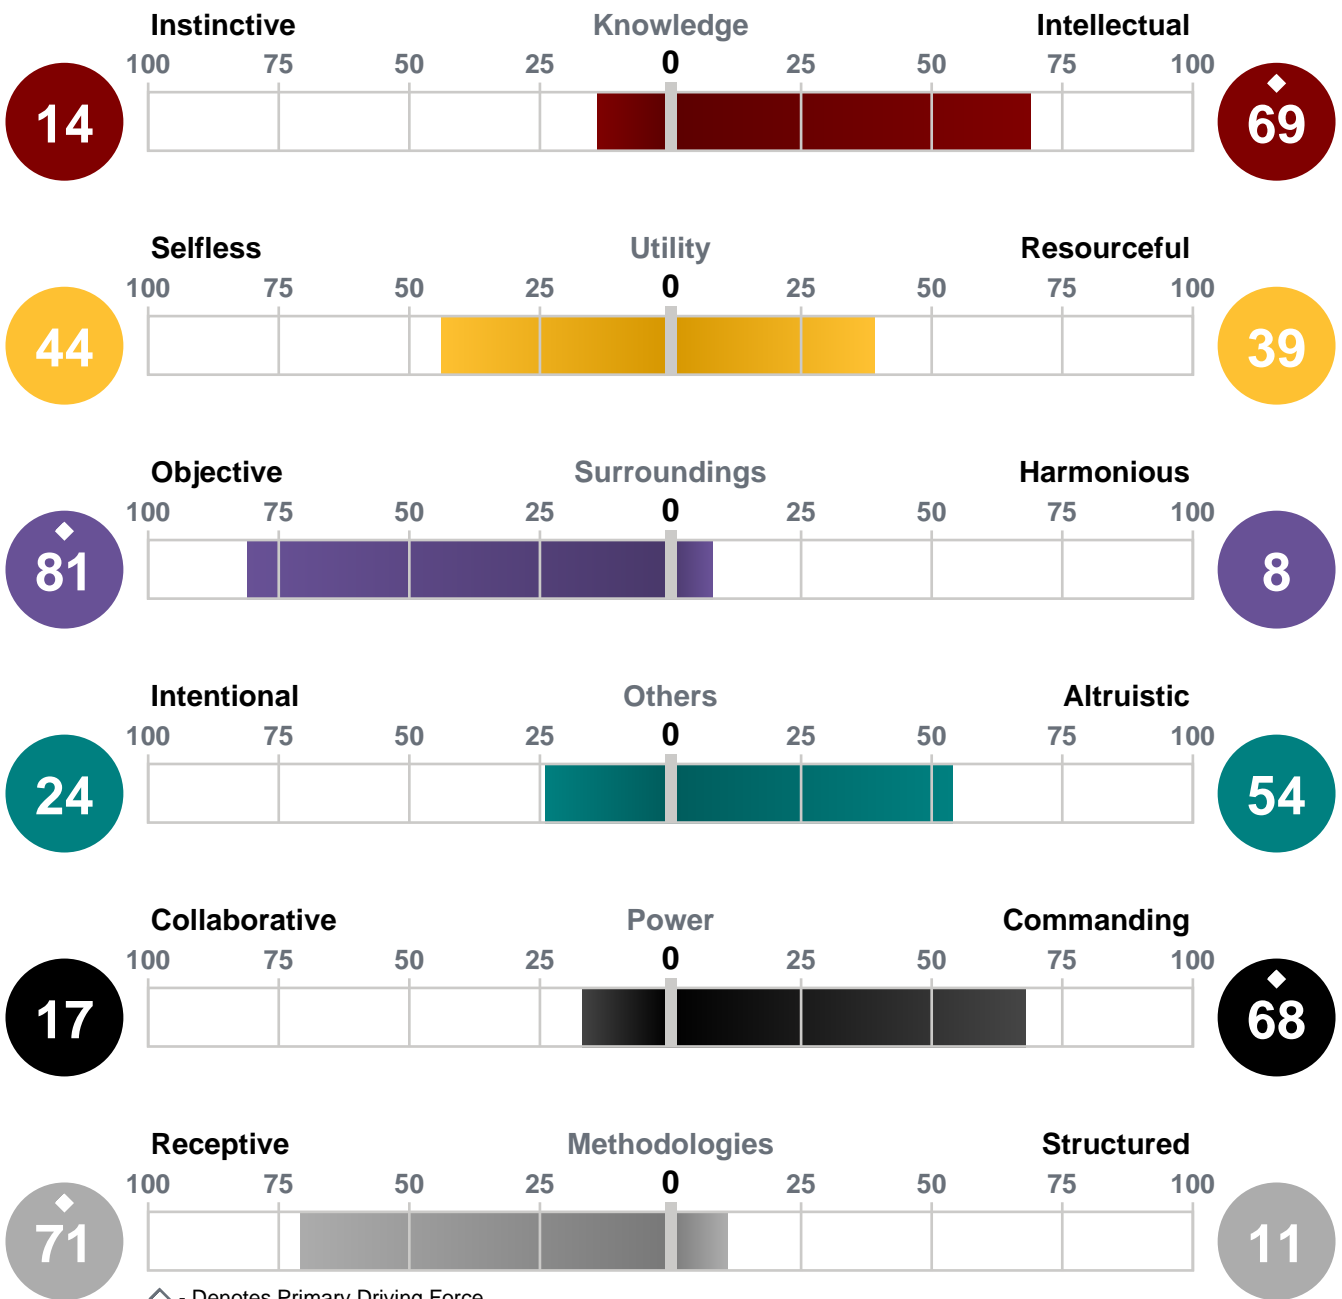

■ - 1st Standard Deviation - * 68% of the population falls within the shaded area. ■ - national mean ★ - your score
 ■ - 2nd Standard Deviation
 □ - 3rd Standard Deviation

Mainstream - one standard deviation of the national mean
Passionate - two standard deviations above the national mean
Indifferent - two standard deviations below the national mean
Extreme - three standard deviations from the national mean

Introduction Integrating Behaviours and Driving Forces Section

The ultimate power behind increasing job satisfaction and performance comes from the blending of your behaviours and driving forces. Each individually is powerful in order to modify your actions, but the synergy of blending the two moves you to a whole new level.

In this section you will find:

- Potential Behavioural and Motivational Strengths
- Potential Behavioural and Motivational Conflict
- Ideal Environment
- Keys to Motivating
- Keys to Managing

Action Plan

The following are examples of areas in which Max may want to improve. Circle 1 to 3 areas and develop action plan(s) to bring about the desired results. Look over the report for possible areas that need improvement.

- Communicating (Listening)
- Delegating
- Decision Making
- Disciplining
- Evaluating Performance
- Education
- Time Management
- Career Goals
- Personal Goals
- Motivating Others
- Developing People
- Family
